A Guide to Basic Statistics for the Non-Statistician

This presentation describes appropriate statistical methods for testing research hypotheses. You will receive a practical guide to statistical tests and we will discuss the most common tests used in health research.

Presenter: Elena O'Donald, MS, Data Analyst
UNM Department of Pediatrics
Division of Prevention and Population Sciences

When: Tuesday, November 15, 2011

Time: 12:00 noon to 1:00 pm
(feel free to bring your lunch)

Where: Research Incubator Building (RIB) Commons
UNM Campus, 2703 Frontier NE, Albuquerque, NM 87131
