Community Based Prevention Research

Professional Development Series

Conducting Survey Research

Surveys are one of the most common research strategies used to answer health-related questions and lengthy textbooks have been written about survey methods. This talk will provide an overview of key features of strong survey design and implementation. Dr. Beth Tigges has developed and conducted several N.I.H.-funded school-based surveys of adolescents and been the Co-Investigator for the N.I.H.-funded National Children's Study, a community-based survey study, in Valencia County for the past five years. She is the Director of Tracking and Evaluation for the UNM HSC Clinical and Translation Science Center.

Presenter: Beth Tigges PhD, RN, PNP Associate Professor
College of Nursing

When: Tuesday, January 15th, 2013

Time: 12:00 noon to 1:00 pm
(feel free to bring your lunch)

Where: Research Incubator Building (RIB) Commons
UNM Campus, 2703 Frontier NE, Albuquerque, NM 87131

*For more information please contact Theresa Cruz at 505-272-4462
or by email at ThCruz@salud.unm.edu*
