**Hear Me Out!  
Workshop for Public Health Researchers and  
Practitioners**

Want to talk about your work with a legislator during the upcoming legislative session, but not sure where to begin? Want to let your senator know about your project, but you don't know how to present it? In this interactive session we will review how we can best advocate to policymakers and educate them about the importance and impact of our work. We will practice "elevator speeches", review how to prepare for a meeting with a legislator, and highlight some general tips for effectively educating policymakers (and the public), and pitfalls to avoid. You don't need to have a specific issue in order to attend, but please come prepared to participate!
